## Play Ball!

Anaheim Hills Little League Baseball has a new scorer's booth, thanks to the efforts of Rotarians who quickly stepped up to the challenge when they learned that the old booth posed a safety hazard and was in need of repair.

Led by project chairperson Martin Latham, the AHRC construction crew

of Tony Siragusa, George Gillespie, Eric and Jonelle Strickland demolished and reconstructed portions of the booth, and then repainted the entire booth.

The entire project went from identifying the need to completion in less than two weeks. That's how quickly Rotarians get things done!

## Greetings from Jamaica

Dr. Harry Charm is seen holding the beautiful club banner from the Rotary Club of Ocho Rios East, St. Ann, Jamaica, courtesy of Gianna Richards who recently visited the island club.

Like AHRC, the Ocho Rios club supports schools and educational projects through donations of desks, chairs, repainting of schools, and student mentoring and reading programs.

Debra Smith (seen below addressing AHRC members at last week's club meeting) is an author, speaker, volunteer and founder of Autism Resource Mom. She founded ARM to "provide support, guidance and hope to families of children with autism spectrum disorder". We were delighted that she selected AHRC as the first Rotary club to visit, and we look forward to partnering with Debra in the future.
